DETAILED ACTION

This action is responsive to communications: original application filed 06/21/2000.

Claims 1-80 are currently pending in this application. Claims 1, 14, 23, 32, 39, 43, 50, 52, 54, 58, 64, 65, 68, 70, and 77 are independent claims.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-38, 50-51, 64, 68 and 69 drawn to a word-processing document including spreadsheet features, classified in class 715, and subclass 515.
- II. Claims 52-57 drawn to spell checking in a spreadsheet, classified in class 715, subclass 533.
- III. Claims 39-49, 58-63, 65-67 drawn to spreadsheet formula manipulation processing, classified in class 715, subclass 538.
- IV. Claims 70-80 drawn to a word processing tables, classified in class 715, subclass 509.

The inventions are distinct, each from the other because of the following reasons:

Inventions I through IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (I) has separate utility such as spreadsheet, invention (II) has separate utility such as spell checking, invention (III) has separately utility such as formula manipulation processing, invention (IV) has separate utility such as word processing tables (See MPEP § 806.05(d)).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II , Group III is not required for Group IV restrictions for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the -fee required under 37 CFR 1.17(i).
